Imagine Maritime gas lamps lighting the way on dark cobblestone streets dating back over a century. Now imagine a modern version that embodies the essence of this icon in a desk lamp crafted in satinised glass and bronzed brass - and you have Copenhagen by the design duo at Space Copenhagen.

The compact size allows you to place the lamp in all kinds of settings and the swivel feature gives you more possibilities for illumination. Light intensity is seamlessly controlled through a dimmable LED feature reflecting Nobel Prize findings about our inner clock and thus the benefits of proper lighting on our wellbeing. Turn the knob on the base of the lamp from a colder brighter white light for daytime to a warmer white light for a cosy effect.

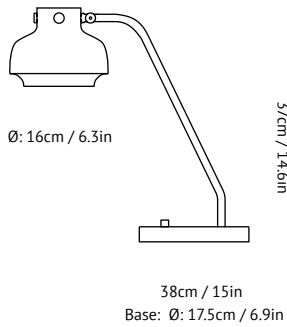

“We love capturing classic designs from the past and transforming them into future collectibles,” explains &tradition CEO / Founder Martin Kornbek Hansen. “That was our initial attraction to the Copenhagen pendant lamp. With this new desk lamp version, it brings a nostalgic element to your work space. Not to mention a practical element - a new dim feature that allows you to alter the light from warm to cold to suit your needs.”

Ideal for any sized desk, the Copenhagen desk lamp will pave the path for pondering great ideas.

Product category	Desk lamp
Production process	The lamp shade is made from mouth blown opal glass and the base and stem are made from deep drawn and extruded metal.
Environment	Indoor
Material	Mouth-blown satinized opal glass & bronzed brass
Dimensions (cm/in)	Glass shade: Ø: 16cm/6.3in Base: Ø: 17.5cm/6.8in, H: 37cm/14.5in, L: 38cm/14.9in
Weight (kg)	2.7 kg
Colours	Satinized opal glass, Bronzed brass
Voltage (V)	100-240V - 50Hz. With wall adapter output: 12V-1000mA
Light source performance & quality	Light output: 420 lumen Lumen/watt: 76 lumen/watt CRI: >85 Dimming & Color temperature (Kelvin): Dim-to-warm technology - 2200K-2800K
Dimmability	The light intensity can be controlled by the dimmer knob on the base of the lamp.
Light source & Energy efficiency class	5,5 Watt LED The luminaire is energy classe : A. The built-in LED module can't be replaced in this luminaire.
Approximate LED life-time	50.000 hours
Certifications	CE, IP20, Class II
Cord length (cm/in)	3.5cm/13.8in
Cleaning instructions	Clean with soft dry cloth. Always switch off the electricity supply before cleaning.
Package dimensions (cm/in)	L: 57cm/23in, W: 27cm/10.6in, H: 23.5cm/9.2in
